## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed on April 06, 2010, with respect to claims 1-5, 9, 11-15, 18-22, 27-31, 35-40, 47-52, 56-59 and 64-66 have been considered and are persuasive. The new limitations added to the independent have not been found or suggested by prior art. Accordingly, the rejection of claims 1-5, 9, 11-15, 18-22, 27-31, 35-40, 47-52, 56-59 and 64-66 has been withdrawn.

### **Allowable Subject Matter**

2. Claims 1-5, 9, 11-15, 18-22, 27-31, 35-40, 47-52, 56-59 and 64-66 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art fails to teach or suggest the limitation, "in response to user entry of the shortest code using only the first button, inputting the internal representation of the first user selectable phrase in its entirety into a current application, the internal representation being in the fixed length binary form; and in response to user entry of the shortest code using only the second button, inputting the internal representation of the second user selectable phrase in its entirety into a current application, the internal representation being in the fixed length binary form," along with other limitations of the independent claims 1, 21, 31, 47, 51 and 64.

Any comments necessary by applicant must be submitted no later than the payment of the issue fee, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
